

THE 2020 CENSUS

The U.S. Constitution mandates a count of everyone in the country every 10 years, regardless of age, gender, race, income, housing or immigration status. The next Census Day is April 1, 2020. This is your chance to be counted!

IT IS IMPORTANT!

The Census guides billions of dollars in annual spending on hospitals, schools, emergency services, roads and more, and each person missed will cost our community thousands of dollars over the next decade. Participation helps your community!

IT IS SAFE!

The Census is only a few questions long, and your answers are protected by federal law. The Census Bureau cannot share your information with anyone, including other federal agencies.

IT IS EASY!

Much of the Census will be conducted online, with mail and phone responses also accepted. In-person follow-ups will help make sure we count everybody. Look for instructions on participating beginning early in 2020!
